Optional accessories each

Additional QuickChange™ Lower Platen 5 sizes \$39

The **Model-7 basic digital PopUp Press®** is automatic; the handle and hot platen automatically pop up when application cycle is complete. The **Model-7 basic digital EzPress®** is a manual press; a buzzer will sound when the application cycle is complete and the operator must promptly lift the handle to remove the hot platen from the garment.

The **Model-7 basic digital EzPress®** & **digital PopUpPress®** are simple and easy to operate. The time, temperature and pressure are automatically controlled. The heated platen is Teflon coated to prevent glue accumulation. The lower platen will automatically adjust to accommodate thick and thin garments without manual platen adjustments. They are built from powder coated steel using reliable solid state components with no springs. They are very easy to maintain, you can "**Repair Any Problem in 10 Minutes.**"
